

Hysterectomy: New options – Faster Recovery

STATE-OF-THE-ART ROBOTIC ASSISTED HYSTERECTOMY
AVAILABLE AT DECATUR MEMORIAL HOSPITAL

Jeffrey Pfeiffer, MD, FACOG
Board Certified
Obstetrician / Gynecologist

To date, Dr. Pfeiffer has performed more robotic assisted hysterectomies than any other doctor in Central Illinois.

The da Vinci® hysterectomy is a minimally invasive approach that uses leading edge robotic technology. DMH is the only hospital in Decatur that offers the da Vinci® Surgical System.

Becoming the treatment of choice worldwide, this innovative technology offers many potential benefits including:

- Significantly less pain
- Reduced blood loss
- Fewer complications, including reduced risk of infection
- Smaller incisions and less scars
- Faster return to daily activities

For more information on Robotic Assisted Hysterectomy, contact the DMH Center for Minimally Invasive Surgery at 217-876-2558.
